

Nama : Nafisah Ulayya
NIM : 242410101049
Kelas : A
Mata Kuliah : Pemrograman Web

Aktivitas Mandiri 5

1. Buat Resource Controller: php artisan make:controller MahasiswaController --resource --model=Mahasiswa

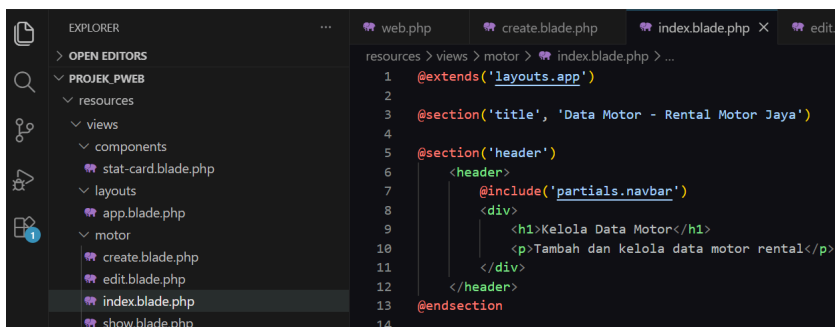

```
PS C:\Users\HP\projek_pweb> php artisan make:controller MotorController --resource --model=Motor
>>

INFO Controller [C:\Users\HP\projek_pweb\app\Http\Controllers\MotorController.php] created successfully.
```

2. Daftarkan di routes/web.php: Route::resource('mahasiswa', MahasiswaController::class)

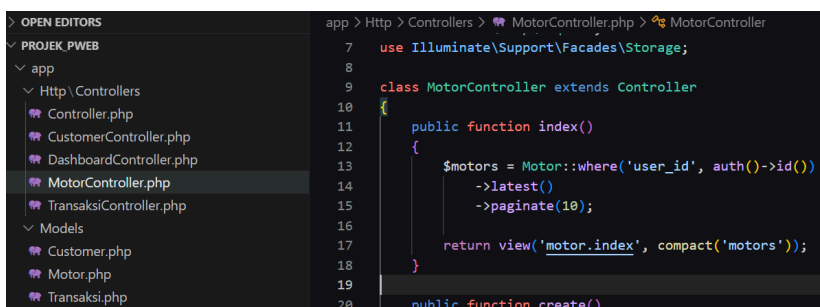

```
routes > web.php
1  <?php
2
3  use Illuminate\Support\Facades\Route;
4  use App\Http\Controllers\DashboardController;
5  use App\Http\Controllers\MotorController;
6
7
8  Route::get('/dashboard', [DashboardController::class, 'index'])->name('dashboard');
9
10 Route::resource('motor', MotorController::class);
11
12 Route::view('/tentang', 'tentang');
13
14 Route::get('/hitung/{a}/{b}', fn($a, $b) => $a + $b);
```

3. Buat semua view: mahasiswa/index.blade.php (tabel + pagination), create.blade.php (form), edit.blade.php (form pre-filled), show.blade.php (detail)

```
resources > views > motor > index.blade.php > ...
1  @extends('layouts.app')
2
3  @section('title', 'Data Motor - Rental Motor Jaya')
4
5  @section('header')
6      <header>
7          @include('partials.navbar')
8          <div>
9              <h1>Kelola Data Motor</h1>
10             <p>Tambah dan kelola data motor rental</p>
11         </div>
12     </header>
13 @endsection
14
```

4. Implementasi method index() — ambil semua mahasiswa dengan paginate(10) dan tampilkan ke view

```
app > Http > Controllers > MotorController.php > MotorController
7  use Illuminate\Support\Facades\Storage;
8
9  class MotorController extends Controller
10 {
11     public function index()
12     {
13         $motors = Motor::where('user_id', auth()->id())
14             ->latest()
15             ->paginate(10);
16
17         return view('motor.index', compact('motors'));
18     }
19
20     public function create()
```

```

create.blade.php  index.blade.php X  edit.blade.php  show
resources > views > motor > index.blade.php > main.layout > section >
1  @extends('layouts.app')
2
3  @section('title', 'Data Motor - Rental Motor Jaya')
4
5  @section('header')
6      <header>
7          @include('partials.navbar')
8          <div>
9              <h1>Kelola Data Motor</h1>
10             <p>Tambah dan kelola data motor rental</p>
11         </div>
12     </header>
13 @endsection
14
15 @section('content')
16 <main class="layout">

```

5. Implementasi create() dan store() — dengan validasi nim (unique), nama (min:3), email (email|unique), jurusan (in:SI,TI,MI)

```

app > Http > Controllers > MotorController.php > MotorController
9  class MotorController extends Controller
20  public function create()
21  {
22      return view('motor.create');
23  }
24
25  public function store(Request $request)
26  {
27      $request->validate([
28          'kode'      => 'required|unique:motors,kode',
29          'nama'      => 'required|min:3',
30          'nomor_plat' => 'required',
31          'merk'      => 'required|in:Honda,Yamaha,Suzuki,Kawasaki',
32          'tahun'     => 'required|integer|min:2000|max:2026',
33          'harga_sewa' => 'required|numeric|min:0',
34          'status'    => 'required|in:Tersedia,Disewa',

```

6. Implementasi edit() dan update() — tampilkan form dengan old() atau \$mahasiswa->field, validasi unique kecuali ID ini

```

app > Http > Controllers > MotorController.php > MotorController > store
9  class MotorController extends Controller
57  public function edit(Motor $motor)
58  {
59      return view('motor.edit', compact('motor'));
60  }
61
62  public function update(Request $request, Motor $motor)
63  {
64      $request->validate([
65          'kode'      => 'required|unique:motors,kode,' . $motor->id,
66          'nama'      => 'required|min:3',
67          'nomor_plat' => 'required',
68          'merk'      => 'required|in:Honda,Yamaha,Suzuki,Kawasaki',
69          'tahun'     => 'required|integer|min:2000|max:2026',
70          'harga_sewa' => 'required|numeric|min:0',
71          'status'    => 'required|in:Tersedia,Disewa',

```

```

        $data = $request->except('foto');

        if ($request->hasFile('foto')) {
            if ($motor->foto) {
                Storage::disk('public')->delete($motor->foto);
            }
            $data['foto'] = $request->file('foto')->store('motors', 'public');
        }

        $motor->update($data);

        return redirect()->route('motor.index')
            ->with('success', 'Data motor berhasil diperbarui!');
    }
}

```

7. Implementasi destroy() — dengan konfirmasi JavaScript sebelum hapus

```

app > Http > Controllers > MotorController.php > MotorController > store
9  class MotorController extends Controller
89
90     public function destroy(Motor $motor)
91     {
92         if ($motor->foto) {
93             Storage::disk('public')->delete($motor->foto);
94         }
95
96         $motor->delete();
97
98         return redirect()->route('motor.index')
99             ->with('success', 'Motor berhasil dihapus!');
100     }
101 }
102

```

```

<div class="aksi-btn">
    <a href="{{ route('motor.show', $motor) }}" class="btn-edit">Detail</a>
    <a href="{{ route('motor.edit', $motor) }}" class="btn-edit">Edit</a>
    <form action="{{ route('motor.destroy', $motor) }}" method="POST" style="display:inline;">
        @csrf
        @method('DELETE')
        <button type="submit" class="btn-hapus"
            onclick="return confirm('Yakin hapus motor ini?')">Hapus</button>
    </form>
</div>

```

8. Tambahkan flash message di layout dan tampilkan session('success') / session('error')

```

resources > views > layouts > app.blade.php > html
2  <html lang="id">
10 <body>
13
14     @if(session('success'))
15         <div class="alert-success" style="background: #d4edda;color: #155724;padding:12px 20px;margin: 10px 0;">
16             {{ session('success') }}
17         </div>
18     @endif
19
20     @if(session('error'))
21         <div class="alert-error" style="background: #f8d7da;color: #721c24;padding:12px 20px;margin: 10px 0;">
22             {{ session('error') }}
23         </div>
24     @endif

```

9. BONUS: Tambahkan fitur upload foto profil dengan validasi image|mimes:jpg,png|max:2048

```

public function update(Request $request, Motor $motor)
{
    $request->validate([
        'kode'      => 'required|unique:motors,kode,' . $motor->id,
        'nama'      => 'required|min:3',
        'nomor_plat' => 'required',
        'merk'      => 'required|in:Honda,Yamaha,Suzuki,Kawasaki',
        'tahun'     => 'required|integer|min:2000|max:2026',
        'harga_sewa' => 'required|numeric|min:0',
        'status'    => 'required|in:Tersedia,Disewa',
        'foto'      => 'nullable|image|mimes:jpg,png,jpeg|max:2048',
    ]);
}

```

```
$data = $request->except('foto');

if ($request->hasFile('foto')) {
    if ($motor->foto) {
        Storage::disk('public')->delete($motor->foto);
    }
    $data['foto'] = $request->file('foto')->store('motors', 'public');
}

$motor->update($data);
```

Aktivitas Mandiri 6

1. Instal Laravel Breeze: composer require laravel/breeze --dev, kemudian php artisan breeze:install blade

```
PS C:\Users\HP\projek_pweb> composer require laravel/breeze --dev
nunomaduro/collision ..... DONE
nunomaduro/termwind ..... DONE

78 packages you are using are looking for funding.
Use the `composer fund` command to find out more!
> @php artisan vendor:publish --tag=laravel-assets --ansi --force

[INFO] No publishable resources for tag [laravel-assets].

No security vulnerability advisories found.
Using version ^2.4 for laravel/breeze
```

```
PS C:\Users\HP\projek_pweb> php artisan breeze:install blade

[INFO] Installing and building Node dependencies.

```

4. Coba register dan login di <http://127.0.0.1:8000/register>

5. Amankan semua route mahasiswa dengan middleware auth:
Route::middleware('auth')->resource('mahasiswa', MahasiswaController::class)

```

routes > web.php
 9  use App\Http\Controllers\TentangController;
10  use App\Http\Controllers\KontakController;
11
12  Route::get('/', fn() => redirect()->route('dashboard'));
13
14  Route::middleware('auth')->group(function () {
15
16      Route::get('/dashboard', [DashboardController::class, 'index']->name('dashboard'));
17      Route::get('/laporan', [LaporanController::class, 'index']->name('laporan.index'));
18
19      Route::resource('motor', MotorController::class);
20      Route::resource('customer', CustomerController::class);
21      Route::resource('transaksi', TransaksiController::class);
22  });

```

6. Coba akses /mahasiswa tanpa login — pastikan diredirect ke halaman login

Foto	Nama Motor	Nomor Plat	Merk	Tahun	Harga Sewa	Status	Aksi
-	Honda Beat	P1234AB	Honda	2022	Rp70.000	Tersedia	Detail Edit Hapus
-	Yamaha NMAX	P5678CD	Yamaha	2023	Rp120.000	Disewa	Detail Edit Hapus
-	Honda Vario 160	P9101EF	Honda	2023	Rp100.000	Tersedia	Detail Edit Hapus
-	Scoopy	P1122GH	Honda	2021	Rp80.000	Disewa	Detail Edit Hapus
-	Kawasaki Ninja	P3344IJ	Kawasaki	2020	Rp150.000	Tersedia	Detail Edit Hapus

7. Tambahkan nama user di navbar: {{ auth()->user()->name }}

```
resources > views > partials > navbar.blade.php > nav > div.nav-container > div#navMenu.menu > form > button
1 <nav>
2 <div class="nav-container">
14 <div class="menu" id="navMenu">
19 <a href="{{ route('laporan.index') }}" class="{{ request()->routeIs('laporan.*') }}"
20
21 @auth
22 <a href="#" style="color: white; padding: 12px 15px; font-size: 14px;"
23 {{ auth()->user()->name }}
24 </a>
25 <form method="POST" action="{{ route('logout') }}" style="display: inline;"
26 @csrf
27 <button type="submit" style="background: none; border: none; color: white; padding:
28 | Logout
29 </button>
```

8. Buat custom middleware CekAdmin yang hanya mengizinkan user dengan role 'admin' mengakses route tertentu

```
PS C:\Users\HP\projek_pweb> php artisan make:migration add_role_to_users_table
INFO Migration [C:\Users\HP\projek_pweb\database\migrations\2026_05_13_144032_add_role_to_users_table.php] created successfully.
```

```
PS C:\Users\HP\projek_pweb> php artisan migrate
INFO Running migrations.
2026_05_13_144032_add_role_to_users_table ..... 1s DONE
```

```
PS C:\Users\HP\projek_pweb> php artisan make:middleware CekAdmin
INFO Middleware [C:\Users\HP\projek_pweb\app\Http\Middleware\CekAdmin.php] created successfully.
```

```
stat-card.blade.php navbar.blade.php 2026_05_13_144032_add_role_to_users_table.php
app > Http > Middleware > CekAdmin.php > CekAdmin
3 use Closure;
6 use Illuminate\Http\Request;
7 use Symfony\Component\HttpFoundation\Response;
8
9 class CekAdmin
10 {
11     public function handle(Request $request, Closure $next): Response
12     {
13         if(auth()->user()->role != 'admin'){
14             abort(403, 'Akses ditolak');
15         }
16
17         return $next($request);
18     }
19 }
20
21 }
```

```
bootstrap > app.php
4 use Illuminate\Foundation\Configuration\Exceptions;
5 use Illuminate\Foundation\Configuration\Middleware;
6
7 return Application::configure(basePath: dirname(__DIR__))
8     ->withRouting(
9         web: __DIR__.'/../routes/web.php',
10         commands: __DIR__.'/../routes/console.php',
11         health: '/up',
12     )
13     ->withMiddleware(function (Middleware $middleware) {
14         $middleware->alias([
15             'admin' => \App\Http\Middleware\CekAdmin::class,
16         ]);
17     })
18     ->withExceptions(function (Exceptions $exceptions) {
19         //
20     })->create();
```

```
Route::middleware(['auth', 'admin'])->group(function () {

    Route::resource('motor', MotorController::class);

});
```

9. BONUS: Modifikasi index() Controller agar hanya menampilkan data yang dibuat oleh user yang sedang login

Server: localhost:3306 Database: projek_pweb Table: users

Showing rows 0 - 1 (2 total, Query took 0.0014 seconds.)

SELECT * FROM `users`

Number of rows: 25 Filter rows: Search this table Sort by key: None

	id	name	email	role	email_verified_at	password
	1	Nafis	nafisahulayya373@gmail.com	admin	NULL	\$2y\$12\$fd02YJGyTqGdASUCIguK8GXks7ts5aBm8br
	2	kimi	kimi@gmail.com	customer	NULL	\$2y\$12\$io7POvRu3H/OsNjDH81L9uc6wC720w58g0YOU

```
class MotorController extends Controller
{
    public function index()
    {
        if (auth()->user()->role !== 'admin') {
            return redirect('/customer-dashboard');
        }

        $motors = Motor::latest()->paginate(10);

        return view('motor.index', compact('motors'));
    }

    public function create()
    {
```
